

AIR POWER

Deadline: 30 April 2026 | Available: 2 June 2026

Following the great success of the special edition “Neue Fähigkeiten für die Luftwaffe” at ILA Berlin 2024, a new internationally focused edition titled “AIR POWER” (German: “AIR POWER – Überlegenheit im Luft- und Weltraum”) will be published for ILA 2026, held from 10–14 June in Berlin. This special edition serves as a high-quality platform for information on the future capabilities and technologies of air forces.

With a print run of 7,000 copies, the magazine combines German and English editorial content in a single issue. A reversible cover with German and English front pages allows both audiences to be addressed directly.

Topics

- Introduction and integration of the F-35
- Developments in helicopters
- Space operations
- Air transport and ground-based air defence
- Future Combat Air System (FCAS) / alternative projects
- Developments in army and navy aviation
- Use of unmanned systems
- Artificial intelligence in collaborative air combat
- Drone deployment and defence
- Technological innovations to strengthen the operational capability and future viability of the armed forces

Distribution

- ILA 2026
- 70 Years Luftwaffe (6 June, Rostock-Laage)
- Federal Ministry of Defence
- Offices and higher command authorities of the German Armed Forces
- Decision-makers in politics, the military, administration and industry
- Decision-makers in relevant NATO and EU institutions
- Trade fair and congress special distribution list
